Headmistress's Message

I hope you enjoy reading this edition of the newsletter, which has a number of articles about the wealth of trips and activities that have taken place since Easter. It is lovely to see how many of the pupils have written the reports themselves.

At this point in the term our Year 11 pupils have begun their final GCSE exams and are on study leave. We look forward to their leavers' day and final assembly at the end of the exams in June.

Our Year 10 pupils have stepped up to be apprentice prefects and are taking on new responsibilities as part of their prefect applications. In addition, 17 of them are working hard towards the Duke of Edinburgh bronze award, and successfully completed their practice expedition on 12 May.

Pupils in the Early Years and juniors performed wonderfully at the special music recital assemblies, helped by some of the senior musicians. It was wonderful to see how many parents were able to attend and to hear how much you enjoyed it.

May I wish all our families a happy half-term break. I know that the seniors will be revising hard for their end of year exams, which begin when we return in June, but I hope there will also be time to enjoy together as a family.

With my best wishes

Mrs Claire Osborn
Headmistress

Looking for the Gingerbread Man

The children in Kindergarten are using traditional tales in their learning this term. Here they are on a walk to the local bakers shop to buy Gingerbread Men for afternoon tea.

Other stories they have enjoyed include The Princess and the Frog; they had a visit from a real frog from Mrs Fisher's pond and went to the forest to see if they could find the Princess and her pond ...

NEWSLETTER

Year 1 Meet Red Watch

On Friday 17 May, the Year 1 pupils took a walk down to Chingford Fire Station on The Ridgeway for a first hand look at what it takes to be a fire fighter. The children had been learning about the Great Fire of London in their History lessons last term and so the trip linked in nicely with their learning about old and new firefighting equipment/techniques.

The children were greeted by the fighters of 'Red Watch' who spoke to them about what happens when a fire call comes in and the various other roles they play in helping to rescue and take care of members of the public. The children were then shown in and around a fire truck and had an opportunity to squirt water from one of the hoses.

It was an extra special trip for Alexander in 1T whose grandfather worked as a fire fighter at the fire station on The Ridgeway many years ago. It was an enjoyable afternoon for all involved.

Year 2 Easter Egg Hunt

On Friday 29 March Year 2 went out to the Green by the church to complete an exciting Easter Egg hunt! The children were put into relay groups; each child had to each run in, grab an egg and then tag their next team mate so they could run in for their egg.

It was a great fun activity, and the children had prepared by making Easter baskets in class to carry their eggs in.

Year 2 Pop Art

Year 2 have recently been learning about Keith Haring, an American artist who uses lots of bright colours and solid shapes in his art. The children began by learning about his life and recreating his work; they then completed some really exciting work with the Reception children where they drew around them and then painted them in the style of Keith Haring. The children chose bright colours and painted in groups to produce the final pieces of artwork. Everyone had great fun working together and collaborating with Reception.

Spreading the Recycling Message

The Junior School Council have been very busy making the world a better place! As a school, we wanted to make sure we are doing our bit to recycle more, so the Junior School Council created special paper recycling bins for each classroom and told their peers what needed to be done. With a little help from Miss Stone, the children empty the bins a few times a week and are always encouraging their peers and teachers to use the bins when they can. We are proud of our school and feel like this little change can make a big difference!

Visit to The Spinney for National Book Day

On Wednesday 1 May, Mrs Gladwell and a group of Year 2 children were lucky enough to be invited to visit local care home The Spinney to enjoy National Book Day. The children got to dress up as their favourite story characters and take along their favourite books.

The children were very excited to read to the residents, who were very much looking forward to the visit. Each of the children did a wonderful job and many of the residents complimented them on their super reading skills.

The residents of The Spinney had voted Alice in Wonderland as their favourite story, so they were treated to a story telling session by one of the residents and a jam tart made by the Queens of Hearts herself!

Here is what Aurora and Aidan thought about our visit.

Aurora: "I really enjoyed it because I like reading to old people and spending time with them. I liked getting to dress up too!"

Aidan: "I think it's interesting to find out other people's ideas about books. I liked reading to the lady I met."

'Clever Never Goes'

On Monday 13 May, Year 3 were visited by PC Karen to learn about 'Clever Never Goes'.

The 'Clever Never Goes' programme has been developed to replace the out-dated 'stranger danger' approach. Research shows that teaching children simply to avoid strangers fails to keep them safe. Strangers are often more likely to help a child than to harm them. Conversely, it can often be people known to children that pose the greatest threat. 'Clever Never Goes' moves the focus away from strangers and instead teaches children to recognise when someone (whether they are known to the child or not) is trying to persuade them to go with them.

The children had a great time with PC Karen, learning about how to spot if a stranger is helpful or not and even had the chance to try on PC Karen's uniform!

Junior Dragons Den

Years 3 and 4 recently took part in a 'Dragons Den' style mission where, with a partner, they designed their own chocolate bar and an advert to persuade the 'dragons' that their chocolate was the most creative and tasty chocolate bar. They spent time learning about different persuasive techniques, including using sophisticated language such as 'tantalising' and 'astounding', as well as using rhetorical questions. Once they had planned their advert, the partners pitched their idea to the four 'dragons', who were Ms Barnard, Mrs Demetriou, Mrs Beeson and Mr Grant. They all presented their chocolate bars very confidently and the four 'dragons' were very impressed with the variety of creative ideas!

NEWSLETTER

Kidzania Trip

"On 28 March 2019, Year 3 to Year 6 went to Kidzania. Kidzania is a place where children can do jobs that they might do when they are grown-ups. The reason we went there is because PSHE stands for personal, social and health education and we had to make personal choices and have educational fun.

I did a cleaner job with my friend Olivia and we had to spray a liquid on the window, then we had a screen wiper to dry the window with, after that we used a scraper to scrape extra water off.

The next job I did was called Just Dance, where we had to choose a song and dance to it. We could only dance like the person on the screen and it took 3 minutes per song.

The last activity we did was working in the theatre where we took part in different shows including Goldilocks and Moana. I liked doing all of the jobs equally.

I would give the trip 5 stars out of five because it was really fun and entertaining. I would recommend it to children aged 4-11 as it was fun to see what kind of jobs they might be interested in when they are adults."

By Eloise, Year 4

Earth Day

Years 3 and 4 celebrated Earth Day by taking part in a variety of activities. The day began with a fantastic presentation delivered by Nicolas on the effects that humans are having on our planet and what we can do to make a positive difference. This inspired many pupils to adopt an 'eco-warrior' attitude and they have all been making a conscious effort to save our planet.

One of the activities that the children enjoyed the most was creating recycled art sculptures. They did a great job of bringing in recyclable materials that they then used to create an endangered animal sculpture. Each sculpture had an important message behind it such as: "Try to reduce our use of plastic", "Stop littering", and "Stop poaching". The children were very involved in this project and were passionate about what it represented.

Following this, the Juniors were able to do their part by picking up litter within the local area. Many passers-by made positive and grateful comments upon recognising the good deed our pupils were doing. It was great to see the children taking such a keen interest in protecting our Earth.

We have also seen that pupils are voluntarily picking up litter after school, during the weekends and in their holidays – we are so proud to have such considerate and committed pupils at Norman Hurst!

NEWSLETTER

Year 5 Science Museum Trip

"I was at school on 2nd May, a Thursday. We were about to go on a trip to the Science Museum in South Kensington. My partner was Amber (my best friend), we walked to the train station and we went from Chingford to Liverpool Street then on to South Kensington. We finally arrived at South Kensington station and we walked through some tunnels which took us to the Museum and we went in.

Our first workshop was called 'It Takes Guts'. We had 3 volunteers from our school go up and help. Prottusha, who played as the 'teeth', had to crush and mush some food mixed together. Konrad and Kelaiah took part in 'The Burp Factor' (Kelaiah won!). We all watched a disgusting video of a person's intestines and food going through their body.

Next we went to the 'Space Exhibit'. We got to go round on our own for 10 minutes with Miss Stone by one end of the exhibit and Mrs Demetriou at the other side. I went around with Amber. I saw a planet hologram, a space suit, a big wall with space questions on and some pictures.

Afterwards, we went to the 'Materials' exhibit. The same things happened. I saw a car on the ceiling, a lot of machines, sliding doors, glass with water and handprints.

It was lunch time next, I had a jam sandwich, a Kitkat, some orange juice, crisps and an apple.

Later on, we went to the 'Wonderlab'. I got to go on the friction slides and pulley swings (where I raced with Amber and Konrad, I won against Amber and drew with Konrad). I went on the spinner and this was very fun. I got to try using my teeth to hear music, I also used the electric machine and lots more!

Our last part of the museum was the shop. I had £5 to use so I got a spring which was multi-coloured. I also got a play foam toy which is satisfying to hear and touch.

Finally, it was the return journey back to school. We came back the same way as getting there, just the opposite way. We got to play with the toys we got from the gift shop at the Science Museum on the way back."

By Poppy, Year 5

Pupil News

As always, we have been interested to learn about the wonderful activities our pupils have been getting involved in outside of school.

Our Brownies

Year 2 pupils Lucy and Elizabeth have been telling us all about a recent event they enjoyed with their Brownies group.

Elizabeth explained "This is a picture of us before we watched the gangshow. A gangshow is all the Brownies, Cubs, Rainbows and Guides in a show together. It's singing and dancing. It was great! My favourite bit was the song from Mamma Mia!"

Lucy went on to agree. "Yes, I liked the dancing because they all had shiny clothes."

Pupil News continued

Litter Picking at the Beach

During the Easter holidays, two of our Junior families enjoyed a break away together in Dorset. Not content with building sandcastles, here are John and Nicolas from Year 4 during their mission to clean the beach by picking up litter.

The boys will be putting this activity towards achieving the Oak-Tree Challenge while their sisters, Elizabeth and Sofia, helped out with the litter picking out of their civic good will. Well done to all four children for helping to improve the environment.

Joseph's Rugby Success

Year 10 pupil Joseph plays winger for Eton Manor Rugby Club in Wanstead. Although he only joined the club half way through the year, he has already established himself as a respected member of the team. Joseph's speed on the pitch and good communication with other players have helped his team win points over clubs who are placed higher in the league.

Joseph hopes to continue developing his rugby skills with Eton Manor, having impressed them with his talent for the game.

British Library Trip

On Wednesday 27 March, Year 5 went to the British Library. The pupils participated in a workshop called "What is Writing?". During this workshop they had an object-handling activity looking at natural and man-made writing tools such as vellum, wax tablets and quill pens.

After that they took part in a treasure hunt in the 'Treasures Gallery' at the British Library where they uncovered a range of written formats from papyrus to vellum and from handwritten letters to scrolls. They then used different art materials to make their own writing. Year 5 also created some posters which they displayed back at school in their classroom – it was a good trip!

Adam - "I learnt that there are different ways to write. I enjoyed looking at the different pens."

Amber - "I learnt about the different writing paper and I enjoyed looking at the books."

George - "I learnt a lot about the history of writing and I enjoyed the Treasures Gallery."

NEWSLETTER

#LitterHeroes

On Friday 10 May, Year 5 helped to make the world a better place by helping to 'Keep Britain Tidy'. As a class they walked around the local area of North Chingford and picked up litter and became #LitterHeroes. #LitterHeroes is our way of supporting everyone who wants to do their bit to create a better environment on their doorstep and anyone who is already making a difference, and this is part of the Keep Britain Tidy campaign.

"I felt proud because we are helping Britain be tidy." – **Adam**

"I felt helpful because there was a lot of litter and my partner and I tidied it up." – **Prottusha**

"I felt disgusted because there was a lot of rubbish and some of it was really disgusting!" – **Mert**

"I felt annoyed because I felt that people think they can just drop litter wherever they are." – **Mattea**

Year 6 Science Experiments

In Science, the pupils in Year 6 have carried out experiments which they had planned themselves. They were given the choice of what to test as long as it was about their 'Electricity' topic.

Since Year 6 had already done series and parallel circuits in class, they were really confident with their basic knowledge. They wanted to be adventurous and experiment with different materials such as fruits and vegetables to see whether they could power a bulb by themselves or conduct any electricity. Some of the children simply wanted to see how many batteries it would take to blow a bulb!

There was a good range of questions that children came up with:

Alfie: How many batteries does it take to blow a bulb?

Kian: What are the perfect vegetables to use in a circuit?

Margarida: What other metals conduct the electricity as well as the wires we use in class?

Ismail: How many bulbs can a battery light?

Children then came up with their hypotheses and tested their ideas in class. They used voltmeters, bulbs, batteries, different materials and a variety of wires. Their findings varied:

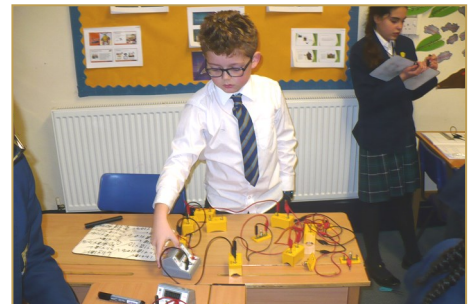

Having measured the current with a voltmeter, Margarida found out that a metal paperclip conducted electricity the best. Second was a pair of scissors followed by foil.

Alfie found out that 7 was the maximum number of batteries that a bulb could handle!

Kian found out that, after measuring the current with a voltmeter, all the vegetables that he used conducted a certain amount of electricity. However, the best one was a lemon.

Ismail found out that a battery could light up a maximum of 4 bulbs.

Year 6 had a lot of fun and further questioned their findings by making suggestions to improve their experiments.

Whole School Photography Competition 2019

On Monday 20 May the winners of this year's inter-house photography competition were announced in whole school assembly. Pupils had submitted an excellent and diverse range of responses to the three categories: Round About, Upside Down and Looking Through. The competition is a fantastic opportunity for all pupils, from Early Years to Year 11, to exhibit their imaginative ideas in response to the themes. This year's winners were:

Round About

First Place
Ibrahim (Year 9)
Connaught

Upside Down

First Place
Claudia (Year 8)
Connaught

Looking Through

First Place
Adam (Year 5)
Warren

Round About

Highly Commended
Matias (Year 4)
Connaught

Upside Down

Highly Commended
Harrison (Year 7)
Warren

Looking Through

Highly Commended
Sam (Year 9)
Connaught

**Well done to all those who won
not only prizes but valuable
points for their house.**

Commercial Vehicle Show Trip

On Wednesday 1 May, we took fifteen Year 10 pupils to the Commercial Vehicle Show (CVS) in Birmingham at the NEC Arena. This was a STEM/careers based trip, where pupils had a chance to walk around the entire expo and speak to various commercial vehicle manufacturing giants like Ford, MAN, DAF, Mercedes etc. to learn about their companies and the sorts of opportunities that are available after graduation. The Year 10 pupils gained a useful insight into these manufacturers' working practices and some even managed to secure some future work experience! Overall it was an interesting trip; pupils returned to school with plenty of promotional resources and experiences whilst learning a great deal. We hope to arrange a return trip in the forthcoming academic year.

We are pleased to report that all the pupils were focussed, engaged and enjoyed exploring and talking to all the different manufacturers. They were a credit to Normanthurst.

Mr Clair – Head of Seniors

Mr Ram – Head of Computing/Head of Connaught House

News from the Art & Design Department

Year 10 Graphics Trip to the Museum of Brands Year 10 Graphic Communications pupils visited the Museum of Brands to explore the evolution of packaging throughout time. They made a selection of drawings in the museum's 'time tunnel' which has packaging from the Victorian era to the present day. The pupils participated in a workshop where they analysed a brand identity and imagined what the next evolutionary stage might be for the products. The trip was the starting point for their GCSE project to design packaging for a new fragrance.

Year 7 Oak-Tree Challenge – Bronze Award Year 7 have been working hard to support each other to complete the final stages of their Oak-Tree Challenge Bronze Award. Throughout the year pupils have been gathering evidence of their extra-curricular activities, self-led learning and volunteering. The group have worked hard as a team to generate ideas for projects and volunteering opportunities in their communities. We are very proud of all of their efforts!

Year 9 – Graphic Design proposals to promote Chingford Library Following a research trip to the local library on Station Road, Year 9 pupils have been working independently to produce a proposal for a graphic design outcome to promote the library. Year 9 have been asked to consider how they could attract new audiences, promote the range of activities that take place at the library, and create an interesting and engaging space for people. The pupils' inventive proposals range from digital campaigns to hanging sculptures, all designed to promote the importance of reading and the library as a community space.

NEWSLETTER

News from the Art & Design Department continued

Year 7 – Fashion Design Year 7 are putting the finishing touches to their customised t-shirts. They have explored a range of designers who work in sustainable fashion production and have learnt lots of new textile skills to produce the t-shirts. The range of outcomes is impressive! The designs will be displayed, with the most inventive shirts being rewarded with lots of house points.

Normanhurst Sports Report

ISA Football Nationals Every player who represented the Normanhurst under 11's team this year exceeded expectations and their attitude was superb. The boys that left St George's Park should feel proud that they represented the school in such an honourable way.

On Friday 3 May Normanhurst School participated in the ISA National Football Tournament finals after winning their regional competition. It took place in the astonishing facilities of St George's Park in Burton-upon-Trent. St George's Park is the training and preparation ground for the England national football team and the complex cost around £100m.

The ISA national finals is one of the main goals for every independent school's football teams to be a part of and only 24 get through to this amazing tournament. The tournament hosted teams from different parts of England (Cambridge, London, Birmingham, etc.) and the teams were split in four groups of six. Normanhurst found the group stages no problem coming top of group D with 3 wins, 1 draw and 1 loss. We played the first game against Thorpe Hall and drew 0-0. The second game was against Queen Ethelburgha's and we lost it due to a speculative long range shot, which ended up in the net.

Despite this loss we did not give up and we faced the third game against Duke of Kent with optimism. This was a special game because Duke of Kent were last year's runners up of the Tournament. It was a tied game and we managed to score the victory goal in the last few minutes. After some chances one of our players was in the right place at the right time and scored the goal that gave us the three points.

Then we then went on to win the fourth game comfortably against Alleyn Court School and with just one game left against Old Vicarage we decided to risk and to play with just one defender and a stronger midfield and attack. We played very well and finally scored the goal that gave us the victory. We had to wait in front of the table for the rest of the results and they went our way, we finished top with 10 points. Unfortunately, tired bodies from the group stages meant Normanhurst were not as clinical with their chances in the later stages in the tournament but still played some of the best football on the day as said by both officials and other coaches. One draw and one loss against two teams meant we did not progress any further.

However, it is fair to say that 8 goals scored in 5 games whilst only conceding 1 goal throughout the group stages shows that we have grown as a team during the last few months. We finished 6th overall out of over 120 schools that entered the competition. Every single member of the team exceeded expectations and their attitude was superb. So we finally left St George's Park with our heads held high and the satisfaction that comes after a unique experience as a team.

NEWSLETTER

Normanhurst Sports Report continued

ISA Regional Athletics This year the ISA Regional Athletics meeting in Bedford took place on a beautiful cloudless day. A very rare treat for this event!

The London North Athletics meeting is our regional qualifier for the National event held at the prestigious Alexandra Stadium in Birmingham later in June. If pupils win their event at the Regionals they qualify to be part of the London North team. So there is a lot to strive for...

This was another very successful day for pupils from Normanhurst School. We started the day with the toughest of races, the 1500m, and there was an excellent performance from Lucy (Y8). Our next success came from Paige who stepped up an age group to compete in the Y10/11 hurdles and won gold. More hurdling success came from Isabella who won gold in the Y8/9 race, and from Alicia in the Y8/9 100m. Then a flurry of success in the field events came our way with wins for Arsene (Y10) in the shot put, and Jay (Y10) with wins in the triple jump and high jump.

We also need to celebrate those pupils who did not manage to win but either came a very close second or gave a personal best performance, and there were plenty of those all day long, including Hamza and Kelaiah in their high jumps, Reuben with a PB in the 100m, and Nneka who came 2nd in the discus with a PB.

The junior team performed admirably all day giving their best in every event. Five out of the six junior relay teams performed well enough in the heats to run in the finals, an impressive achievement in itself and a testament to the quality of our junior athletes.

The day ended with the entertaining senior relays. The Year 8/9 girls once again stole the show with a faultless performance taking Gold and qualifying for Nationals. Well done Chelsea, Paige, Isabella and Alicia. There were also strong performances from the 8/9 boys' team and the Y10 girls finished the day in style!

I would like to thank Mr Clair and Miss Stone for travelling with the PE team, cheering, supporting and helping all day.

Tennis The summer term brings the tennis season and we have had a busy start, although unfortunately some matches have been disrupted by bad weather. However lots of matches have been played against Bancroft's, Forest, Brentwood, New Hall and St Paul's Way, with more due to be played or rescheduled against Roding Valley, Davenant and Clapton Girls Academy.

Normanhurst are playing in the English Schools Tennis Competition in both boys and girls Y7/8 and Y9/10 age groups. After all the matches Normanhurst will know if they have progressed to the next stage of the competition.

Year 5 Tennis Ridgeway Park Year 5 were invited to attend a special morning of coaching at Ridgeway Park in a scheme funded by the LTA to promote tennis in primary schools. Tom, the Waltham Forest tennis co-ordinator, took an exciting and challenging session, hopefully inspiring our pupils to play a little more tennis!

NEWSLETTER

Normanhurst Sports Report continued

Year 11 Topgolf & White Water Trips As part of celebrating Year 11's time at Normanhurst the PE department organised a fun filled series of events for them to enjoy. The first event was a trip to Topgolf in Chigwell which was competitive and fun in equal measure with pupils showing off their golfing skills. Many of the pupils achieved excellent scores.

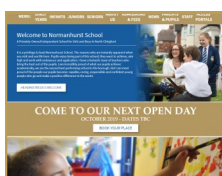

Over the course of the following two Fridays the same groups encountered a water based obstacle course and a round of Frisbee golf at the Olympic White Water Centre in Lee Valley. The obstacle course was a huge challenge for all of the pupils and staff to undertake but all pupils approached it with great skill and application, completing a number of time trials and different activities. The Frisbee golf proved a tough challenge for all, but everyone persevered and despite two Frisbees getting lost in the trees, all pupils completed the course in good spirits before returning to the obstacle course to cheer on their classmates. Overall, all three of the activities were a huge success and a great way for Year 11 to finish their PE careers at Normanhurst before their GCSE examinations begin. Good luck to all!

U14 Tennis vs New Hall On Monday 13 May, we took a group of boys and girls to New Hall School in Chelmsford for an afternoon of tennis on what was a scorching hot May day. The boys won their doubles rubbers 4-2 and the girls lost their rubbers 4-2. All pupils represented their school superbly during the fixtures, with some amazing tennis skills on display. A special mention however, must go to Jasmine (7E) who played against girls two years her senior with huge levels of success; well done Jasmine!

Duke of Edinburgh Practice Expedition

The first of the DofE expeditions took place last weekend. The aim of the practice is to acquire all of the skills needed to complete the qualifying expedition that takes place in June.

24 Year 10 pupils took part in all, 17 from Normanthurst and 7 from Braeside. They were split into groups and did very well; all groups successfully completed their walks on both days. They showed good map reading skills, resilience and determination, as well as enjoying putting up tents and toasting marshmallows over the camp fire.

Normanthurst School Parents' Association

Dear Parents

We have some wonderful news to share with you. Thanks to all your generous support and involvement in the NSPA activities, we have just placed an order for 36 iPads to enhance our children's learning activities at school. This has been a long-term goal for the NSPA, and we are so proud that this has been achieved.

Summer BBQ

The summer BBQ is one of the highlights of the NSPA calendar and is taking place from 4 - 8pm on Saturday 22 June. We have a new theme, Party in the Playground, and there will be music, food and lots of activities for all ages including: cake competition, sponge the teacher, chocolate and bottle tombola, inflatables, raffle, a cash bar serving an interesting range of alcoholic and soft drinks, and sand art. The children will also do a dance performance during the BBQ.

School uniform sale

One lesser known thing that the Parents Association co-ordinates is the sale of second hand school uniform items. We are always happy to receive good condition school uniform items and sell them to raise money for the school. The list of clothes with prices (subject to availability) can be found on the NSPA notice board, and if you wish to order any of the clothing items, please get a message to us via the school office. We do have a rapid turnover of these clothes, so if you wish to donate any uniform pieces, please leave them in the school office for the NSPA to collect.

Dates for your diary

5 June 7.15pm: NSPA Meeting (school hall)

22 June 4 - 8pm: Summer BBQ

28 June (TBC): Phil the Bag Collection

15 September (time TBC): Welcome Walk

We look forward to seeing you at a NSPA event this year.

The NSPA Committee
